

May 21, 2019

The Honorable Joseph P. Kennedy III United States House of Representatives 304 Cannon House Office Building Washington, DC 20515

Dear Representative Kennedy:

The undersigned national organizations in the Mental Health Liaison Group (MHLG) are writing to offer our strong support for the Behavioral Health Coverage Transparency Act of 2019.

The MHLG is a coalition of national organizations representing consumers, family members, mental health and addiction providers, advocates, payers and other stakeholders committed to strengthening Americans' access to effective mental health and addiction care. Together, on behalf of the millions of Americans living with mental health and addiction disorders, their families, and communities, we advocate for public policies and funding to improve access to high-quality health care through prevention, early intervention, treatment and recovery services and supports.

The MHLG commends the introduction of legislation to strengthen implementation and enforcement of federal rules covering mental health and substance use disorders treatment at parity with other health benefits. In unity, we advocated tirelessly for the enactment of the Paul Wellstone and Pete Domenici Mental Health and Addiction Equity Act of 2008, and recognize that increased transparency and improved accountability of health insurers is essential to fully realizing both the letter and spirit of this landmark law, and its application to the Affordable Care Act.

The Behavioral Health Coverage Transparency Act of 2019 would require issuers to disclose the analysis they perform in making parity determinations; their denial rates for mental health versus medical/surgical claims and the reasons, and require federal regulators to conduct a minimum of 12 random audits of health plans per year. Additionally, it would create a central online portal so that consumers can easily access publicly available information, as a one-stop shop, including information about their parity rights, information insurers submit about how they make parity decisions, results of audits, and serve to submit complaints. These key provisions will help ensure mental health and addiction coverage is in compliance with parity, and treatment ultimately becomes available to those in need.

Thank you for your continued leadership and strong dedication to mental health and substance use disorder parity. We look forward to working with you to ensure the enactment of this important legislation.

Sincerely,
